Annual Index
Westinghouse ENGINEER
Volume 33, 1973

Subject Index

PS . . . Products and Services
TP . . . Technology in Progress

A

Acid digestion. See Nuclear energy.
Acoustic. See Opto-acoustic.
Aerator. See Drives.
Aircraft electrical system. See Power system.
Airport. See Transportation.

B

Battery charger, KW JIC industrial. PS. Sept. p160.
Beams, polyglass pultruded. PS. Jan. p32.
Bushing. See Transformer.

C

Circuit breaker
ground fault circuit breaker optimizes protection of people and equipment. J. J. Misencik, G. B. Mason. May. p83-5.
independent-pole circuit breakers improve system stability performance. C. L. Wagner, H. E. Lokay. Sept. p130-7.
modular EHV power circuit breakers simplify installation while retaining proven reliability. July. p112-8; Outside back cover.
new molded-case circuit breakers have easy selection of continuous current rating. A. E. Maier, A. B. Shimp. July. p106-11.
See also Relay.
Coal gasification, for electric power generation. S. Lemezis, D. H. Archer. July. p119-25.
Communication, emergency beacon for miners being field-tested. TP. July. p127.
Communication system. See Opto-acoustic.
Computer
forced-cooling analysis. PS. Mar. p64.
hybrid load-flow and transient stability calculators—new tools for power system security monitoring. N. R. Carlson. Jan. p24-8.
programmed "light sculpture" adds to New York skyline. TP. May. p92-3.
tape reader. PS. Mar. p64.
warehouse operations system automates information processing. TP. May. p91-2.
See also Datadraft system; Power plant; Power system.
Construction. See Housing.
Control
Numa Logic 300-series. PS. Nov. p189.
See also Numerical control.
Control system. See Power plant.

D

Data buoy. See Environment.
Datadraft system, computerized information processing translates customer requirements into drawings and control systems. P. E. Jacobs, J. L. Mueller. May. p66-71.
Diode
high-power silicon. PS. Sept. p160.
lead-mount rectifier. PS. Nov. p189.
Direct numerical control. See Numerical control.
Drive
cycloconverter system will power large Yankee dryer. TP. Sept. p158.
geared drives for aerators are effective and reliable. C. F. Garland, D. L. Moser, D. L. Seager. Jan. p12-7.

E

Economics, correspondence course. PS. May. p96.
Electrical system. See Power system.
Electric plug. See Wiring devices.
Electric power generation. See Coal gasification.
Electric vehicle, cargo carrier. PS. Jan. p32.
Elevator, standard design minimizes cost of observation elevators. TP. July. p126.
Environment
environmental management school meets this summer. TP. May. p95.
environmental monitoring helps resolve pollution problems. J. J. Paulus. Sept. p150-5.
sensor system for the National Data Buoy Project. E. L. Caldwell. Jan. p18-23; Outside back cover.

F

FFTF. See Nuclear energy.
Flowmeter, vortex ultrasonic. PS. Mar. p64.
Furnace, Skylab system provides precise thermal environment for materials experiments. J. M. Feret, R. Mazelsky. Nov. p174-9.

G

Gearmotor. See Drives.
Generator
aircraft generator improvements for high temperature, high altitude. TP. Nov. p186.
compact 5-MW superconducting ac generator passes initial tests. TP. Jan. p29-30.
gas turbine-generators assembled in specialized facility. TP. May. p92.
largest hydrogenerators being built for Grand Coulee plant. TP. Sept. p159.
training in turbine-generator installation and operation. PS. Jan. p32.
Ground fault protector. See Circuit breaker.

H

Housing
factory-built interior subsystems. Nov. Inside front cover.
systems approach to multistory residential housing. R. B. Curtis. Jan. p2-9.

I

Icebreaker. See Marine.
Induction heating, lengthens rail life. TP. May. p93-4.
Instrumentation, Servochrome ribbon indicator. PS. Mar. p65.

K

Kitchen. See Housing.

L

Lamp
high-intensity discharge lamp brochure. PS. Mar. p64.
plant-growth lamp improved in efficiency. R. Corth. Jan. p10-1.
Style-Tone vapor lamp. PS. July. p128.
Lighting
computerized lighting cost reduction service. PS. May. p96.
system for atomic absorption spectroscopy. PS. July. p128.
See also Lamp.

M

Manufacturing information. See Datadraft system.
Marine, propulsion equipment supplied for large icebreaker. TP. July. p127.
Meteorology. See Environment.
Meter
magnetic tape recorder. PS. Nov. p189.
Quick-Stack meter centers. PS. Sept. p160.
Mining. See Communication.
Motor
being built for Diablo Canyon nuclear plant. TP. May. p93.
F-800 insulation system. PS. Sept. p160.
medium ac motors designed for especially quiet operation. TP. Mar. p62.
See also Drives.

N

Nuclear energy
acid digestion—a new method for treatment of nuclear waste. R. E. Lerch, C. R. Cooley, J. M. Atwood. Sept. p146-9.
FFTF core mockup. Jan. Inside front cover.
laser drills and welds capsules for reactor tag gases. TP. May. p94-5.
sodium wear test rig verifies FFTF components. TP. May. p90-1.
Numerical control, direct numerical control increases productivity of machine tools. T. J. Dolphin, D. H. Mullins. Sept. p138-42; Outside back cover.

O

Oceanography. See Environment; Television.

Coal gasification, for electric power generation. S. Lemezis, D. H. Archer. July. p119-25.
Communication, emergency beacon for miners being field-tested. TP. July. p127.
Communication system. See Opto-acoustic.
Computer
forced-cooling analysis. PS. Mar. p64.
hybrid load-flow and transient stability calculators—new tools for power system security monitoring. N. R. Carlson. Jan. p24-8.
programmed "light sculpture" adds to New York skyline. TP. May. p92-3.
tape reader. PS. Mar. p64.
warehouse operations system automates information processing. TP. May. p91-2.
See also Datadraft system; Power plant; Power system.
Construction. See Housing.
Control
Numa Logic 300-series. PS. Nov. p189.
See also Numerical control.
Control system. See Power plant.

D

Data buoy. See Environment.
Datadraft system, computerized information processing translates customer requirements into drawings and control systems. P. E. Jacobs, J. L. Mueller. May. p66-71.
Diode
high-power silicon. PS. Sept. p160.
lead-mount rectifier. PS. Nov. p189.
Direct numerical control. See Numerical control.
Drive
cycloconverter system will power large Yankee dryer. TP. Sept. p158.
geared drives for aerators are effective and reliable. C. F. Garland, D. L. Moser, D. L. Seager. Jan. p12-7.

E

Economics, correspondence course. PS. May. p96.
Electrical system. See Power system.
Electric plug. See Wiring devices.
Electric power generation. See Coal gasification.
Electric vehicle, cargo carrier. PS. Jan. p32.
Elevator, standard design minimizes cost of observation elevators. TP. July. p126.
Environment
environmental management school meets this summer. TP. May. p95.
environmental monitoring helps resolve pollution problems. J. J. Paulus. Sept. p150-5.
sensor system for the National Data Buoy Project. E. L. Caldwell. Jan. p18-23; Outside back cover.

F

FFTF. See Nuclear energy.
Flowmeter, vortex ultrasonic. PS. Mar. p64.
Furnace, Skylab system provides precise thermal environment for materials experiments. J. M. Feret, R. Mazelsky. Nov. p174-9.

G

Gearmotor. See Drives.
Generator
aircraft generator improvements for high temperature, high altitude. TP. Nov. p186.
compact 5-MW superconducting ac generator passes initial tests. TP. Jan. p29-30.
gas turbine-generators assembled in specialized facility. TP. May. p92.
largest hydrogenerators being built for Grand Coulee plant. TP. Sept. p159.
training in turbine-generator installation and operation. PS. Jan. p32.
Ground fault protector. See Circuit breaker.

H

Housing
factory-built interior subsystems. Nov. Inside front cover.
systems approach to multistory residential housing. R. B. Curtis. Jan. p2-9.

I

Icebreaker. See Marine.
Induction heating, lengthens rail life. TP. May. p93-4.
Instrumentation, Servochrome ribbon indicator. PS. Mar. p65.

K

Kitchen. See Housing.

L

Lamp
high-intensity discharge lamp brochure. PS. Mar. p64.
plant-growth lamp improved in efficiency. R. Corth. Jan. p10-1.
Style-Tone vapor lamp. PS. July. p128.
Lighting
computerized lighting cost reduction service. PS. May. p96.
system for atomic absorption spectroscopy. PS. July. p128.
See also Lamp.

M

Manufacturing information. See Datadraft system.
Marine, propulsion equipment supplied for large icebreaker. TP. July. p127.
Meteorology. See Environment.
Meter
magnetic tape recorder. PS. Nov. p189.
Quick-Stack meter centers. PS. Sept. p160.
Mining. See Communication.
Motor
being built for Diablo Canyon nuclear plant. TP. May. p93.
F-800 insulation system. PS. Sept. p160.
medium ac motors designed for especially quiet operation. TP. Mar. p62.
See also Drives.

N

Nuclear energy
acid digestion—a new method for treatment of nuclear waste. R. E. Lerch, C. R. Cooley, J. M. Atwood. Sept. p146-9.
FFTF core mockup. Jan. Inside front cover.
laser drills and welds capsules for reactor tag gases. TP. May. p94-5.
sodium wear test rig verifies FFTF components. TP. May. p90-1.
Numerical control, direct numerical control increases productivity of machine tools. T. J. Dolphin, D. H. Mullins. Sept. p138-42; Outside back cover.

O

Oceanography. See Environment; Television.

Opto-acoustic, signal processors extend radar and communication system capabilities. M. Gottlieb. May. p76-82; Outside back cover.

P

Plant. See Security system; Turbine, gas; Turbine, steam; Wastewater treatment.
Power generation. See Coal gasification.
Power plant
simulation facilitates dynamic factory operational testing of plant automation and control systems. T. C. Giras, P. N. Papas. May. p72-5.
Power supply, uninterruptible power supplies provide insurance for critical ac loads. C. G. Helmick. Nov. p162-7.
Power system
equipment being supplied for Navajo Project switchyards. TP. Nov. p187.
generation and transmission information goes into automated data bank. TP. Nov. p188.
hybrid technology shrinks ACES remote input/output unit. TP. Jan. p31.
NASA tests new type of power management system. TP. Sept. p156; Inside front cover.
See also Circuit breaker; Computer; Relay.
Pump, Varaflow director controls pumps for waste and water plants. TP. Mar. p63.

R

Radar
AWACS development enters preproduction phase. TP. May. p90.
overland downlook radar is key element of AWACS. R. E. Hendrix. July. p98-105.
See also Opto-acoustic.
Rapid transit. See Transportation.
Relay
pole disagreement relaying for independent-pole circuit breakers. C. L. Wagner, E. A. Udren. Nov. p168-73.
solid-state underfrequency. PS. Nov. p189.
Reverse osmosis, system facilitates disposal of used cutting oil. TP. July. p126-7.

S

Satellite. See Furnace.
Security system
developing an integrated security plan for plant protection. F. W. Romig. Mar. p52-7.
See also Weapon detector.
Semiconductor. See Thyristor.
Signal processing. See Opto-acoustic.
Skylab. See Furnace.
Sonar. See Television.
Spacecraft. See Power system.
Superconductor. See Generator.
Switch, submersible switching cubicle. PS. July. p128.
Switchboard, low-voltage distribution. PS. July. p128.
Switchyard. See Power system.

T

Television, video disc display for sonar. K. E. Wood. Mar. p46-51.
Testing, Waltz Mill facility tests underground cables and also demonstrates feasibility of 1100-kV overhead systems. C. J. Baldwin and J. W. Bankoske. Nov. p180-5.
Thyristor
type T920. PS. May. p26.
why r-c networks and which one for your converter. PS. Jan. p32.
Transformer
cast resins find expanding application in transformer bushing insulation. C. L. Moore, E. E. Woods, P. W. Martincic. Mar. p42-5.
distribution substation transformer. PS. May. p96.
dry-type distribution transformer. PS. Jan. p32.
Hi-Rise transformer. PS. July. p128.
1300-MVA transformer goes to American Electric Power. TP. Nov. p187.
transformer gas analysis locates faults and prevents outages. TP. Sept. p158-9.
Vacutap load tap changers. PS. Mar. p64.
Transmission line. See Testing.
Transportation
airport expansion will include passenger shuttle system. TP. Nov. p188.
airport transit system eliminates much walking. TP. Sept. p156-8.
alternative systems for rapid-transit propulsion and electrical braking. B. J. Krings. Mar. p34-41.
Tube, electronic, multicolor cathode-ray. PS. Nov. p189; Outside back cover.
Turbine, gas
turbine plant equipped for high volume and high quality. Sept. p143-5.
W-1101 gas turbine power plant designed for 50-Hz operation. TP. Sept. p156.
Turbine, steam
new plant increases capacity for manufacture of turbine components. Mar. Inside front cover.
precise forging techniques produce high-quality turbine blades. July. Inside front cover.
testing service. PS. July. p128.

U

Underground cables. See Testing.

W

Wastewater treatment, integrated plant produces equipment for water and wastewater treatment. May. Inside front cover.
Weapon detector, improved weapon detector reduces false alarms. TP. Mar. p62.
Welder
model TCHR welder. PS. May. p96.
Welder (*continued*)
wire feeder for MIG welding. PS. Sept. p160.
Wire, high-quality magnet wire produced quickly and efficiently. Mar. p58-61; Outside back cover.
Wiring devices
flanged inlets and outlets. PS. July. p128.
OSHA requirements brochure. PS. May. p96.
wiring devices improved in safety features. R. J. Landisi. May. p86-9.
